SUMMARY

Passionate Front-End Developer with expertise in AI Full-Stack Development, backed by hands-on experience in modern web technologies. Proven ability to design scalable applications, write clean code, and deliver secure, innovative software.

SKILLS

- HTML5
- CSS3
- JavaScript
- Front-End Development
- REACT
- Git & GitHub
- Logo Design
- AI Fullstack Development

EDUCATION

Pondicherry University M.Sc Computer Science - 8.5	2024 - 2026
Saradha Gangadharan College Bachelor of Computer Application - 7.2	2021 - 2024

WORK EXPERIENCE

Lenovo India Private Limited • Performed hardware quality testing of desktops. • Verified shell parts and side door screws for defects such as scratches, misprints, or damage. • Maintained accurate inspection reports, improving testing efficiency.	SEPT 2023
--	-----------

PROJECTS

Crowdfunding With Blockchain • It helps entrepreneurs share their ideas and grow their businesses. • It makes it easy for people to donate to orphanages and support kids with educational materials. • Investors can directly fund projects or startup ideas they believe in. • All transactions are stored safely using blockchain technology. • The platform is designed to help both students and entrepreneurs succeed.	
To-Do List (React + Supabase) 🔗 • Built with a modern React front end, making the app fast, interactive, and easy to use. • Integrated with Supabase API for smooth real-time data storage and task management. • Designed with a clean, minimal UI so you can focus on adding, editing, and organizing tasks. • Fully responsive and lightweight, ensuring a smooth experience on both mobile and desktop devices.	NOV-2025

CERTIFICATE

NPTEL (Machine Learning for Core Engineering Disciplines) Certification [🔗](#)
