PROFILE SUMMARY

Software Developer with hands-on experience in Python and full-stack development, specialising in system integration and API integrations across cloud-hosted environments. Proven ability to design and deploy scalable applications that connect data layers with application logic, with a strong focus on cross-functional collaboration and code quality.

TECHNICAL SKILLS

Programming Languages: Python · JavaScript

Web & Frameworks: Next.js · React · HTML5 · CSS3

Database & ORM: Supabase · Drizzle ORM

AI / ML: Decision Tree · Random Forest · Machine Learning Pipelines

UI/UX: Figma · Canva · Adobe · Wireframing · Prototyping · Responsive Design · User-Centered Design

DevOps & Tools: Git · GitHub · Code Review · Clean Code Practices

Soft Skills: Cross-functional Collaboration · Debugging · Integration Design · Cloud Solutions

EDUCATION

M.Sc Computer Science — CGPA 8.5

2024 – 2026

Pondicherry University, Puducherry, India

Bachelor of Computer Application — CGPA 7.2

2021 – 2024

Saradha Gangadharan College

WORK EXPERIENCE

InPlant Trainee — Lenovo India Private Limited

Sept 2023

- Performed hardware quality testing of desktops to ensure product standards were consistently met.
- Verified shell components and assembly screws for physical defects including scratches, misprints, and structural damage.
- Maintained detailed inspection reports, improving testing efficiency and traceability.

PROJECTS

Eligibility-Based Government Scheme Recommendation System

Jan 2026 – Apr 2026

Python · Next.js · Supabase · Drizzle ORM · Decision Tree · Random Forest · Full-Stack Cloud Development

- Designed and deployed a full-stack cloud-hosted application in Python that matches citizens to relevant government schemes, integrating application logic tightly with the data layer for reliable end-to-end system integration.
- Implemented collaborative code review workflows with peers, consistently producing clean, efficient, and maintainable code throughout the development lifecycle.
- Architected the system integration layer using Drizzle ORM with Supabase, enabling robust troubleshooting and debugging of complex data flows across the stack.

CERTIFICATIONS

- NPTEL — Machine Learning for Core Engineering Disciplines
- NPTEL — Data Analytics with Python
